

Could anything be nicer and funnier? This crazy wolf will bring hours of laughter, and stimulate inventive play; it's inexpensive and can be made in a jiffy. It's the perfect thing if you have many children on your list.

*Directions:* Use a brilliant cotton sock in boys' sizes. Make a center cut, up the foot; line the opening with red felt for the mouth. Add four white felt teeth, and a wicked red felt tongue. For the eyes, glue on an eye-shaped piece of white felt, and on top of this sew on a smooth black button. Nose and ears are of felt, too, and he's ready to scare three little pigs anywhere.
