

When you are planning decorations for your lawn, or for the planting next to the house, don't forget your bird and squirrel friends. Offer them holiday hospitality by hanging, from a tree or shrub, bright tarlatan bags filled with suet, nuts or other tasty bits. Stitch up only one side of the bag, leaving the other side open for easy access. Or, if you buy the bags, make a long slit in one side.

*Outdoors, a birds' Christmas tree*
